## SILVER WINS

A FREE COINAGE BILL  
PASSED BY THE  
SENATE.

Washington, Jan. 14.—This was a great day for the free coinage people. According to previous arrangements the Senate passed to the consideration of the financial bill immediately after the reading of the Journal. Senator Ingalls took the floor and for more than two hours addressed the Senate, repudiating the record he has made since he came to the Senate. He abused both of the old political parties, taking a crack at the whole political field. After depicting his numerical and lobbying for the support of the Alliance Members of the Kansas legislature, he took his seat. Other speech made, and amendments offered. Finally Senator Vest astonished the Senate by offering a purely free coinage substitute, and the bill as amended by this substitute was passed by vote of 39 to 27.

Washington, Jan. 15.—The free coinage bill was received in the House from the Senate this afternoon, and its reception was greeted with applause from the Democratic side. It now goes to the Speaker's table.

The full text of the free coinage bill is as follows:

A bill to provide against the contraction of this currency and for other purposes.

That from and after the date of the passage of this act the unit of value in the United States shall be the dollar, and the same may be coined of 412½ grains of standard silver, or of 25 8 10 grains of standard gold; and the said coins shall be legal tender for all debts, public and private. That hereafter any owner of silver or gold bullion may deposit the same at any mint of the United States to be coined into standard dollars or bars for his benefit and without charge; but it shall be lawful to refuse any deposit of less value than \$100, or any bullion so base as to be unsuitable for the operations of the mint.

## ALIS OVER.

The Indian Troubles On the Frontier Near the Pacific Settlement.

Pine Ridge, S. D., Jan. 14.—This morning Little Wound, Little Hawk, Crow Dog and Old Calico came in from the hostiles to talk with Gen. Miles under the escort of Young-Man-Afraid-of-His-Horses. Other chiefs were expected.

This afternoon a second delegation of hostile chiefs arrived from the camp. It comprised Two Strike, Kicking Bear, Lance High, Hawk and Eagle Pipe. They had a big talk with Gen. Miles. The same subjects were considered as in the morning session with Little Wound, Big Road, Crow Dog and Turning Bear. It was agreed that the hostiles would leave their present camp and pitch their tents on the west side of the White Clay creek, immediately opposite and less than a half mile from the Agency. It also decided the Indians would surrender their arms to their respective chiefs, and thus the arms would be taken. The latter would receipt for them, placing the name of each man upon his gun. The weapons would then be sold and the proceeds returned to the Indians. It was also decided their chiefs would attempt to control their young men, and failing in this they would themselves arrest those who refused to act as good Indians and turn them over to the agent. Gen. Miles was pleased with the friendly disposition manifested by the chiefs and proposed to allow them several days in which to redeem their promise.

As an evidence of his good-will, the General has sent to the hostiles several thousand pounds of flour and several hundred pounds of coffee and sugar. Gen. Miles also considered with them several of the important contracts with the Indians which have been violated, and guaranteed that in future these contracts would be complied with to the letter. The chiefs were equally well pleased with the kind treatment they had received at the hands of Gen. Miles and left immediately for camp. Gen. Miles demanded the surrender of the slayers of Lt. Casey, and the chiefs promised to accede to the demand.

## BLEEDING KANSAS.

The Republican Senate and  
Senate House Sat Out.

Kansas City, Mo., Jan. 16.—A special to the Journal from Topeka says: "Sensational development in the Senatorial fight may be expected soon. The Farmers' Alliance in Kansas last night decided to unseat seven Republican members of the lower house and seat the seven contestants' Farmers' Alliance candidates."

When this fact became known to-day the Republicans of the Senate met and it is said decided to adjourn the Senate on the very day that the Republicans of the lower house are unseated. The adjournment will be sine die and will prevent the holding of a joint session for the purpose of electing a Senator. The choice of a Senator, to succeed Mr. Ingalls will then devolve upon Gov. Humphreys, who, it is said, will name Mr. Ingalls to succeed himself. The adjournment of the Senate would also prevent the making of any appropriations to pay the expenses of the State Government, for two years, but this will not stand in the way of the plan decided upon.

## That Air Ship.

Mt. Carmel, Ind., Jan. 15.—At last the air ship is a fact. It will be taken to Chicago to-morrow and exhibited in the Exposition building. The buoyancy chamber is twenty-foot long and one-half foot in diameter. The ship with the propellers, rubbers, etc., is thirty feet in length. The inventors have a contract with Jas. A. Fanning and others to exhibit it for twelve weeks. They are to receive \$100,000. It is to fly around the Exposition and carry two passengers. It will go by express, and a car is being changed here for that purpose, as it can not be put in a car door.

## Want No Distinctions Made.

Topeka, Kan., Jan. 15.—A State convention of negroes has been called to meet on the 27th inst., to discuss the educational laws of the State. The laws at present provide for the whites and negroes. The object of the convention is to recommend that the law be so amended as to admit negroes to all of the schools.

## Dr. Acker's English Phis.

Knowing that a cough can be checked in a day, and the first stages of consumption broken in a week, we hereby guarantee Dr. Acker's English Cough Remedy, and will give money to all who buy, take it as per directions, and do not find our statement correct. For sale by Hillyard & Woods.

MARION, CRITTENDEN COUNTY, KENTUCKY, JAN. 22, 1891.

NUMBER 31

## ALLIES OVER.

Garnets by the Wagon-load.

Portsmouth, O., Jan. 15.—There is considerable excitement a few miles from Guyon, Ky., over the discoveries of garnets in large quantities on several of the small tributaries of Guyon River. It appears that the presence of the garnets was ascertained a year ago by several Cincinnati gentlemen who were looking for timber land. They secured nearly a gallon of these gems and sent a number of them to lapidaries in London, England, for examination. The report has just been received. It declares the stones of first quality, though not very large. The discoverers say they can gather a wagon-load of the stones with little trouble, and announce that the abundance of the garnets is due to the presence of a heavy tin deposit.

## THE CONSTITUTIONAL CONVENTION.

What Property Exempt from Taxation.

Frankfort, Ky., Jan. 16.—The Convention as a committee of the whole, after various amendments, adopted the the second section of the report of the committee on Revenue and Taxation. This section is an important one as it names that property of which the Convention thinks should be exempted from taxation. We wish first to say our organization is not proposing to open any warehouse here; we have no part in it. Our order has not been consulted about any of its movements; it is a concern outside of our order and we are in no way responsible for any of its acts.

"We wish to say to our people to have nothing to do with it until it proves right. We can't afford to be mixed up with any such concern. I feel it my duty as President of the Kentucky State Union to warn our people that this is no tobacco house of ours, and further I instruct the lecturers of our order to speak out on this subject and let the membership know that this house is in no way connected with us. We have no faith in the move whatever."

"P. S. B. ERWIN."

The publication of this card has, of course, excited the ire of the Tobacco Growers' Association which concerns expects to get its support from the Members of the Farmers and Laborers' Union. The persons who are interested in the new warehouses are mostly members of the Union, and the scheme was put on foot to break up the great combine of the tobacco warehouses. They concluded to wait until morning and resume their labors. Next morning on going to the same spot they observed that some more work had been done after they had left the night before, and, upon examination in the bottom of the pit, they discovered an open space about the size of a stove vessel, all open, showing conclusively that something had been taken out of it. They think that when they ceased work the night before they were near a fortunite, for old man Gossett was very wealthy and it was always known that he had buried all his accumulations.

The next morning after the above occurrence three strangers purchased railroad tickets at Fredonia, the nearest station, for Evansville, and every one seems confident these were the men who secured the hidden treasure. The above is vouches for by one of the county officials who lives in the immediate neighborhood and who is an honest upright citizen. He says that although it sounds so very strange and unreasonable it is nevertheless an absolute fact.

BANCROFT DEAD.

America's Greatest Historian Passes Away.

Howard Lake, Minn., Jan. 17.—All of Wright county is excited over a phenomenal birth which occurred four weeks ago at Boone Bridge, 4 miles south of this point. The animal is described by those who have seen it as a devil. Its body is covered with hair a couple of inches long. It has horns, a tail and a foot which is a cross between that of a man and a dog. Its mother is Mrs. Sarah A. Morse, a woman of English parentage, and of the best connection. She became violent on sight of the monstrosity, and was sent to St. Peter's this week hopelessly insane. The devil-child developed rapidly and now weighs 22 pounds. It already shows a greater degree of intelligence than a child usually does at the age of 1 year. Members of the Morris family explain the phenomenon from an accident which occurred about two months before the birth. A pedler of Bibles came to the house and Mrs. Morris attempted to drive him away with the remark that she would soon see the devil in the house as the Bible. Growing angry at the remark the book agent raised his arm as if to strike her and said, dramatically "I will send a devil to you."

It seems almost hopeless to try to check the spread of the fearful disease.

The Shortage Made Good.

St. Louis, Jan. 14.—A special from Little Rock, Ark., says that State Treasurer Woodruff's bondsmen held a meeting yesterday and decided to make good the shortage in the Treasurer's accounts.

Maj. Woodruff turned over to his sureties sufficient property to save them any loss.

The deficit amounts to \$94,000.

SCIENTIFIC AMERICAN.—Every week this most valuable periodical presents whatever is new in the world of science, art, and manufacturers. Full of practical information, it discloses to be thoughtful not only what has been ascertained, but also suggests the possibilities still to be revealed. For forty-five years Munn & Co. have conducted this paper in connection with the procuring of patents for new inventions. The SCIENTIFIC AMERICAN is authority on all scientific and mechanical subjects, and should be in every household. Copies of the paper may be seen at his office and subscriptions received.

Do Not Suffer Any Longer.

Knowing that a cough can be checked in a day, and the first stages of consumption broken in a week, we hereby guarantee Dr. Acker's English Cough Remedy, and will give money to all who buy, take it as per directions, and do not find our statement correct. For sale by Hillyard & Woods.

## ALLIANCE TROUBLE.

President Irwin vs the Tobacco Growers.

Louisville, Ky., Jan. 17.—There is trouble brewing between Tobacco Growers Association, which has recently opened two houses in this city for the sale of tobacco, and S. B. Erwin, State President of the Farmers and Laborers Union, and editor of the State Union, the official organ of the order in the State. In the issue of that paper to-day was published the following card:

"Inquiries are coming to us

about this new tobacco warehouse

that is being opened here, known as

the Kentucky Association. Inquiries

come to know about the Alliance

house; some want to secure their

positions in it and many other in-

quiries of like nature.

"We wish first to say our organi-

zation is not proposing to open any

warehouse here; we have no part in

it. Our order has not been con-

sulted about any of its movements;

it is a concern outside of our order

and we are in no way responsible

for any of its acts.

"We wish to say to our people to

have nothing to do with it until it

proves right. We can't afford to be

mixed up with any such concern.

I feel it my duty as President of

the Kentucky State Union to warn our

people that this is no tobacco house

of ours, and further I instruct the

lecturers of our order to speak out

on this subject and let the mem-

bership know that this house is in no

way connected with us. We have

no faith in the move whatever."

"P. S. B. ERWIN."

The publication of this card has, of course, excited the ire of the Tobacco Growers' Association which concerns expects to get its support from the Members of the Farmers and Laborers' Union. The persons who are interested in the new warehouses are mostly members of the Union, and the scheme was put on foot to break up the great combine of the tobacco warehouses. They concluded to wait until morning and resume their labors. Next morning on going to the same spot they observed that some more work had been done after they had left the night before, and, upon examination in the bottom of the pit, they discovered an open space about the size of a stove vessel, all open, showing conclusively that something had been taken out of it. They think that when they ceased work the night before they were near a fortunite, for old man Gossett was very wealthy and it was always known that he had buried all his accumulations.

The next morning after the above occurrence three strangers purchased railroad tickets at Fredonia, the nearest station, for Evansville, and every one seems confident these were the men who secured the hidden treasure. The above is vouches for by one of the county officials who lives in the immediate neighborhood and who is an honest upright citizen. He says that although it sounds so very strange and unreasonable it is nevertheless an absolute fact.

## The Crittenden Press

ISSUED WEEKLY.

R. C. WALKER, Publisher.

We are authorized to announce S. G. CLARK, to represent Crittenden and Livingston counties in the next General Assembly of Kentucky, subject to the action of the Democratic party.

The Indian war is over, and Mr. Lo should be put to work and made to earn his own bread. He is entirely too unpatriotic and unreliable to continue a pension.

Governor Hill's going to the United States Senate, it is said, does not rest his aspirations for the Presidency. The feelings of the country towards a highly respected gentleman named Grover Cleveland, of New York, will go a long way towards putting a quietus on Senator Hill's aspirations for the next few years.

Banks continue to go to the wall on account of the stringency of money matters. This, however, is not the greatest inconvenience on account of the need of a greater volume of currency. The laboring class, the tiller of the soil and the unpretentious business men suffer more than the big banks on account of a contracted currency.

A dispatch from Washington says there is no show for free coinage; that should the Vest bill pass the House, the President would veto it. The country would like to see the bill on Mr. Harrison's table at any rate; the position for the President would be untenable, but it would show the kind of stuff he was made of.

Considerable effort is being made to save Carters neck—the youth who is under sentence of death at Mayfield for murder. Numerous petitions have been sent to the Governor asking him to commute the sentence to life imprisonment. The accused's tender age has worked up considerable sentiment in his favor. Cold justice certainly demands the execution of the sentence, but there are instances where justice could be tempered with mercy without insulting society, and this appears, from a distance, to be an instance of that character.

The scrambling for office, the means used to hold high official positions, and the utter disregard of fairness in pursuit of official honors and emoluments, remind one of Goldsmith's verse:

"I fares the land, to hastening ill's a prey,

Where wealth accumulates and men decay."

A mental glibness at the capitals of a number of States where the legislatures are in session is enough to sicken the heart and destroy the confidence of the admirer of our form of Republican government. The recent prize fight at New Orleans is ennobling in its character when compared with some of the ugly skirmishes for office.

The Jefferson county Farmers' and Laborers' Union met and appointed delegates to the Cincinnati Conference. The delegates were instructed to oppose the attempt to form a third party, and to leave the convention if such a formation was insisted upon. In this point there is want of unity among the members of the organization everywhere, and many of them choosing to affiliate with the old parties as heretofore. It is demanded by the old parties such legislation as they require. Dr. Clardy and Mr. Clay, both outspoken prominent Alliance men, are candidates for Governor, subject to the action of their old party, and the President of the State organization is opposed to the third party movement; the position of these gentlemen, in connection with the expressed purposes of a number of the county organizations, indicate that the feeling in this State is opposed to the third party.

### Rewards.

Our neighbor, the Monitor, wants to know why the Governor has not offered a reward for the apprehension of John Imboden. The Governor's position under similar circumstances is aptly set forth in the following from the Paducah Standard:

"Gov. Buckner refused to offer a reward just yet for the apprehension of Jesse Brown, the negro who killed Harry here about ten days ago. The Governor cites as reasons for this that it is the duty of every officer in the State, in the first place, to use all proper diligence in this efforts to hunt down and bring the lawbreaker to justice, and being within the State they ought to find him. If not in the State, then the reward offered would move the murderer to greater vigilance in efforts to elude the officers and escape arrest. When it is known due diligence has been shown by sheriffs, constables, police officials, and is clearly shown the murderer is beyond the confines of the State and may not reasonably be expected to be apprehended by the State's officers, then the Governor will no doubt offer a reward for Brown's apprehension and conviction."

### RUNNING HIGH.

**Party Feelings are Better at the Capitol.**

(Special to Courier-Journal.)

Washington, Jan. 20.—There were wild and exciting scenes in the House to-day shortly after it met. It all came about Speaker Reed and Mr. McKinley pursuing their old tactics of silencing the minority voice of the House by their usual brutal and revolutionary action. Immediately after the journal was read, despite the fact that Mr. Mills and a dozen Democrats were on the floor demanding to be heard to make objections to the journal, McKinley moved the previous question on approving the journal. This motion jolted the Democratic side to a fever heat and Mr. Mills used strong and vigorous language in his vindication of both Reed and McKinley. He was particularly strong in his denunciation of the Speaker, stating that he was no gentleman, and had not one spark of honor and fairness in him. The vehement language of Mr. Mills set the whole House in an uproar. Members from both sides crowded down the middle aisle directly in front of the Speaker's table and it was with the utmost difficulty that a personal conflict between several of the members was prevented. The Sergeant-at-arms with his men finally secured order, but not before some extremely personal and offensive epithets had been hurled back and forth between Democrats and Republicans.

Party feelings is running at a high temperature here at the present time, and a personal encounter between members on the floor is not unlikely at any time during the remainder of the session. It is evidently the purpose of the democrats to absolutely block all legislation in both House and Senate until the Force Bill is out of the way.

In a few days the Democrats may bolt from the House and Senate and compel the Republicans to do their dirty partisan legislation with a quorum of their own. Well-informed Democratic Senators still insist that the Force Bill will be beaten, even should the election rule pass.

So far as free silver is concerned, that is now as dead as a doornail. The President told a Senator to-day that he knew it would defeat for re-election. There is no probability now, however, that the bill will ever go to the Executive Mansion.

**DUPED NEGROES.**

**Victims of the Washington African Colonization Fraud.**

Atlanta, Jan. 20.—The excitement of the negroes over the colonization-in-Liberia scheme, being engineered by the United States and Congo National Emigration Steamship Company, does not abate. It is estimated that two thousand negroes have come to Atlanta from Texas and Mississippi to wait for the promised ship to take them, as they expect, from Savannah to Africa, and the cold weather of the past few days has found them in such destitute that the city has, in many cases, been compelled to aid them.

The Constitution has had the Congo Company investigated, and disclosures in that paper have created no little excitement among the negroes of Atlanta, who have put their money into the company.

There is some talk among those who have contributed of bringing the matter before the courts, but as each has paid so little, it is not probable that such action will be taken.

**United State Senators.**

Monday the Democrats of the New York Legislature nominated, unanimously, Gov. Hill for United States Senator, to succeed Senator Evans. He was elected Wednesday. The Republicans voted for Evans.

The Indiana Democrats nominated Senator Voorhees to succeed himself, and the Republicans will vote for Gov. Hovey.

The Republicans of South Dakota have nominated and will elect Senator Moody.

Colorado Republicans unanimous

ly nominated Henry M. Teller.

**To Collect Old Debts.**

Washington, Jan. 19.—Representative Stone introduced bills to day to pay the following parties for stores furnished the Union army during the war: Hugh M. Johnson, of Lyon county, and R. E. Fowler, of Crittenden county, also to grant honorable discharge John W. Peck, of Company H, Seventeenth Kentucky Cavalry Volunteers.

The Alabama Legislature has laid a bill, making an appropriation for an exhibit at the World's Fair, upon the table, to await the action of the United States Senate on the Force Bill.

Lieut. Gov. Bryan announces that he will not be a candidate for Governor.

### NEWS NOTES.

Berlin has 75,000 idle workmen.

Russell Petty will be hung at Paducah April 17.

Forty persons were killed by the recent earthquake in Algeria.

Tennessee's new Governor Buchanan, was inaugurated Monday.

Mrs. M. A. White, of Weston, Wis., has been asleep three weeks.

At Tipton, Ind., William Vaire killed his wife and himself.

Near Whitesburg, Ky., a mail carrier was killed and the mail robbery.

Five men were martyred by two masked men at McCartyville, Mo.

Wm. Behrens is in a New York hospital with a broken neck, but still alive.

King Kalakaua, of the Hawaiian Islands, is lying at the point of death at San Francisco.

The American National Bank at Kansas City has failed. Liabilities \$2,250,000.

Some unknown scamp has been selling negroes tickets to Africa for \$1.00 a piece.

At Omaha, Neb., a \$12,000 stock of liquor and the house that contained it was blown up.

By a natural gas explosion at Finley, O., a hotel was wrecked, and two persons killed.

At Lexington Lilly White, a colored girl, put poison in coffee and killed her mother and father.

Jno. Kress, freight agent of the N. N. & M. V., railroad at Memphis, is missing with \$10,000 of the road's money.

Jno. C. Hall, a San Francisco lawyer, has confessed to the embezzlement of \$150,000 from estates which he managed.

A company with \$3,000,000 capital has been organized to construct a tunnel between New York and Brooklyn.

The Indiana House has passed a resolution favoring a co-operation among half a dozen Western States to tax foreign capital.

A number of army and navy officers have been detailed to go to South America to get exhibits for the World's Fair.

The Canfield Iron Company, of Pennsylvania has ordered a reduction of 10 per cent in the wages of its 5,000 workmen.

The burning of John and James Dobson's carpet mills near Philadelphia, Friday caused a loss of \$1,500,000 and put 350 men out of work.

A bill is pending in the Michigan Legislature making it a heavy fine for a member of the legislature or State Officer to accept and use free railroad passes.

The Republicans of the Illinois Legislature nominated ex Governor Oglesby for the United States Senate, giving him 61 votes, while Farwell received only 30.

Ex Gov. Thayer, of Nebraska, is crazy. The recent excitement occasioned by his attempt to hold the Governor's office was too much strain on the old man's mind.

City Attorney Warder, of Chattanooga, Tenn., went home drunk, shot and killed his son-in-law, dangerously wounded his daughter, and was fatally shot himself.

The Constitution has had the Congo Company investigated, and disclosures in that paper have created no little excitement among the negroes of Atlanta, who have put their money into the company.

There is some talk among those who have contributed of bringing the matter before the courts, but as each has paid so little, it is not probable that such action will be taken.

**The Depth of Drains.**

The depth and distance apart of drains is considered by Klippart as follows: The ideal depth will compensate for frequency in all cases known to be abandoned. It is conceded that clay soils, which readily absorb moisture, and yet are strongly retentive, cannot be drained with sufficient rapidity, or even thoroughly, by drains of any depth, unless they are also well aerated. The best way to do this is to lay them as much as possible in the same direction as the other water-drainage, so as to prevent the deeper water-drain the further it withdraws. The tendency of water is to level in the soil, and capillary attraction and gravitational obstructions offer constant resistance to this tendency. The further water has to pass in the soil the longer time, other things being equal, will be required for the passage. Therefore, although a single drain might in ten days lower the water level as much as a drain of the same depth, the other water-drain will do the work all alone, to its own level, yet it is quite evident that two drains might do the work in less time—possibly in five days. We have seen already the necessity of laying drains deep enough to be below the reach of the subsoil plow and below frost, so that in the northern states the question of shallow drainage seems hardly debatable. If we were to adopt the same direction for the other water-drain the further it withdraws, the deeper water-drain the water all down to its own level, yet it is quite evident that two drains might do the work in less time—possibly in five days. We have seen already the necessity of laying drains deep enough to be below the reach of the subsoil plow and below frost, so that in the northern states the question of shallow drainage seems hardly debatable. \$800 is gone.

But that Old Gray Headed account of yours is yet with us. Now please don't think, for a moment that because of it having been with us so long that we have become so much endeared to it that "it parting would give us pain." For while we have the most profound respect for its advanced years and highly appreciate the "bulldog tenacity" with which it has clung to us through out past ages. We must now insist on a speedy separation. Our business demands money. If you owe us please call at once and settle. As all accounts made prior to June 1st, last must be closed.

Yours truly,  
Pierce & Son,

The jail continues empty.

Express, 7:36 a. m.

Mail, 6:55 p. m.

Through freight, 12:01 a. m.

Local freight, 8:11 a. m.

SOUTH BOUND.

Express, 6:55 p. m.

Mail, 1:40 p. m.

Through freight, 1:52 a. m.

Fine, 4:01 p. m.

Hayes wants your lard and potatoes and eggs and quince.

## Tobacco Growers Association.

The concise article published by President Irwin concerning the warehouses of the Tobacco Growers Association, has been a source of surprise and annoyance to the members of the Association here. One of the directors said to us:

"I don't understand what Irwin means; he was in the meeting and on the committee that drafted and resolved the resolutions which resulted in the establishment of the houses, and gave the movement his hearty co-operation and support. Now, when we are ready to gather fruits of our labor, he turns against us and thus passes my understanding."

O. V. Business.

The O. V. agents are now making comparative statements, contrasting the business each week this year with that of the corresponding week last year. Agent Brown's report last week was as follows: Jan. 4th to Jan. 10th, 1891, 1 car hogs to Cincinnati, 3 cars cattle to same place, 1 car cattle to Louisville, 2 cars lumber to Evansville, 2 cars staves to Vincennes, local freight forwarded 6,182 lbs. Jan. 4th to Jan. 10th, 1891, 2 cars hogs and 2 cars cattle to Cincinnati, local freight forwarded 13,378 lbs.

The Union Labor Meeting.

Elsewhere we advertise the Company Cookery and Reliable Receipts to be given in connection with the Press. \$1.40 will get this valuable book and the Press for one year. We will give a copy of the book to any one who will send us three cash subscribers.

Our Premium Cook Book.

Resolved that we favor a call for a national Conference at Cincinnati Feb. 23 in the interest of a third party movement, and select the following named delegates to attend the Cincinnati Conference: Al Cardin, Dr J R Clark, James Little and Daniel Riley as alternates. Committee adjourned to meet again in Marion on Saturday the 31st Jan.

A. H. Cardin, Char.

Hays keeps flour at 60c, 70c, 75c and 80c per 25 lb sack.

H. C. McGoodwin & T. G. Maxwell have formed a partnership in the hardware and grocery business in Fredericksburg and are located at Max well's old stand, they carry a full line of hardware, saddlery, stoves, agricultural implements and staple Groceries. They also make and repair saddles, harness &c at very low figures. They invite their friends and the public generally to call and get their prices.

ON FOR TEXAS.

A party of five men and families left Monday for Texas. They were Henry and Jule Wheeler, Jno. and Duke Bettis and John Malcolm. Some of them already have homes in the Panhandle country, and the others may locate there or may return to "Old Kaintuck."

Music Class.

The second term of Mrs. L. A. Glascock's music school began Jan. 19. Pupils may enter any time. She teaches piano, organ, guitar and vocal music. She has taught successfully many classes in Marion and always gives satisfaction. She will appreciate your patronage.

Cut off A Finger.

Two of Mr. Wm. Hughes' little children were playing with an ax Tuesday, when one cut the middle finger of the right hand of its playmate entirely off.

Remembered.

A few of the many friends of the late John S. Gilliam are having a neat, tasty and handsome monument made to place over his grave.

Pretty Good.

Mr. Thos. Croft, a Crittenden county farmer recently killed an eighteen month old pig and its net weight was 500 pounds.
